## SUMMARY

Information Systems graduate with multidisciplinary experience spanning software engineering, IT infrastructure, applied AI/data analysis, and technical leadership. Combines hands-on system development and infrastructure deployment with quantitative research on AI Literacy using the MAILS framework, supported by a strong academic record (GPA 3.73/4.00) and international-oriented technical training.

## EDUCATION

**Universitas Islam Negeri Sultan Syarif Kasim Riau**

Sep 2022 – Jun 2026

*Bachelor of Science in Information Systems – GPA: 3.73 / 4.00*

*Pekanbaru, Riau, Indonesia*

- **Undergraduate Thesis:** “The Impact of AI Literacy and Create AI on AI Self-Efficacy and AI Self-Competency: A MAILS Model Approach”
- **Methodology:** Quantitative survey research using the Meta AI Literacy Scale (MAILS) framework, executing survey instrument design, dataset cleaning, and statistical analysis/modeling.

## EXPERIENCE

**Head of Software Engineering Division**

Nov 2024 – Dec 2025

*Puzzle Research Data Technology (Predatech)*

*Pekanbaru, Riau, Indonesia*

- Led technical problem-solving sessions and structured systems analysis across multidisciplinary teams, aligning software development activities with project requirements.
- Standardized collaborative version control and code review workflows using **Git and GitHub**, establishing branch management protocols and supporting developers through technical roadblocks.
- Authored technical documentation, system workflow diagrams, and Standard Operating Procedures (SOPs) to streamline knowledge transfer and maintain development consistency.

**Network Infrastructure Deployment Technician**

Jun 2024 – Aug 2024

*Network Infrastructure Team, UIN Sultan Syarif Kasim Riau*

*Pekanbaru, Riau, Indonesia*

- Deployed and configured **256 Ruijie wireless access points across 14 multi-story campus buildings** collaborating within a **13-person infrastructure team**, supporting a large-scale campus WLAN rollout.
- Executed physical infrastructure installation including structured UTP cable pulling, conduit routing, trunking, elevated ceiling mounting, and high-density **RJ45 and patch panel terminations**.
- Conducted systematic LAN/WLAN connectivity and cable continuity testing, diagnosing and resolving cabling faults and link disruptions to ensure network stability prior to handover.

**IT Support & Laboratory Assistant**

Sep 2023 – Jun 2024

*Faculty of Science and Technology, UIN Sultan Syarif Kasim Riau*

*Pekanbaru, Riau, Indonesia*

- Maintained operational readiness for **83 computer workstations across 3 computing laboratories** through preventive diagnostics, corrective maintenance, and hardware fault isolation.
- Standardized laboratory computing environments through clean Windows OS installations and configured academic toolchains, including **VS Code, Cisco Packet Tracer, and XAMPP**.
- Maintained LAN switch connections, patch cabling, and IPv4 configurations while delivering on-site technical support to faculty and students, resolving operating system crashes and software configuration errors.

**Data Mining Practicum Instructor & Workshop Speaker**

Mar 2026

*Faculty of Science and Technology, UIN Sultan Syarif Kasim Riau*

*Pekanbaru, Riau, Indonesia*

- Instructed data mining practicum sessions and technical workshops, guiding students through dataset preprocessing, exploratory data analysis (EDA), and predictive modeling concepts.
- Guided practical implementations of classification and clustering algorithms, troubleshooting student code and reinforcing analytical methodologies.

## LEADERSHIP EXPERIENCE

### Event Project Director

*The 22nd Information Systems Anniversary, UIN Sultan Syarif Kasim Riau*

Sep 2024 – Nov 2024

*Pekanbaru, Riau, Indonesia*

- Directed operational planning and execution for an institutional event with **500+ participants**, governing **6 cross-functional operational divisions** under strict deadlines and resource constraints.
- Commanded on-site crisis resolution and emergency contingency protocols during live execution, resolving audio-visual technical disruptions, vendor delays, and facility logistics under high pressure.

## SELECTED TECHNICAL EXPERIENCE

### Bincard Inventory – Warehouse Stock Movement Management System

*Tech: Laravel 11, Livewire 3, Alpine.js, Tailwind CSS, MySQL, ECharts*

Sep 2025 – Nov 2025

*Enterprise Systems Application*

- Developed a centralized warehouse management system managing **5,000+ inventory items** using **Laravel 11, Livewire 3, Alpine.js, Tailwind CSS, and MySQL**, replacing manual stock tracking with centralized inventory workflows.
- Designed a normalized relational database schema with foreign key constraints, automated stock running-balance calculations, audit trails for stock movements, and exportable reports with ECharts analytics.

### Bara Kasir – Offline-First Point of Sale (POS) Web Application

*Tech: React, Node.js, Express, MySQL, PWA, Service Workers, IndexedDB*

Feb 2026 – Apr 2026

*Full-Stack Web Application*

- Engineered a full-stack retail Point of Sale (POS) system using **React, Node.js, Express, and MySQL** to streamline checkout workflows, catalog management, and automated stock deductions.
- Implemented **Progressive Web App (PWA)** architecture using **Service Workers and IndexedDB**, enabling offline transaction processing and automatic data synchronization upon network reconnection.

### Penny Path – AI-Integrated Financial Planning Mobile Application

*Tech: Kotlin, Android SDK, Jetpack Compose, Retrofit, AI/ML APIs, Firebase*

May 2024 – Jul 2024

*Capstone Project, Google Bangkit Academy*

- Developed a personal finance Android application in **Kotlin (Android SDK)**, enabling dynamic budget planning, expense tracking, and real-time cash flow analytics.
- Implemented MVVM architecture utilizing **Jetpack Compose, Coroutines, and Retrofit** for structured state management, integrating Machine Learning recommendation endpoints into user workflows.

### Emotica – Emotion-Aware Applied AI Web Application

*Tech: Python, Flask, TensorFlow/Keras, React, Next.js, RESTful APIs*

Sep 2024 – Dec 2024

*Applied AI Web Project*

- Engineered an applied AI web application integrating a **TensorFlow/Keras** model with a **Flask** backend service and a responsive **React/Next.js** user interface.
- Designed RESTful API pipelines to process incoming user data, execute real-time model inference, and present structured analytical outputs to end-users.

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, PHP, Kotlin, SQL, Python, HTML5, CSS3.
- **Full-Stack & Mobile:** React.js, Next.js, Livewire 3, Alpine.js, Android SDK, Jetpack Compose, Progressive Web Apps (PWA), Service Workers, IndexedDB, Tailwind CSS, Bootstrap.
- **Backend & Database:** Node.js, Express.js, Laravel, RESTful APIs, JSON Web Tokens (JWT), Middleware, Authentication, MySQL, PostgreSQL, Relational Database Modeling, Room Database, Firebase.
- **AI, Machine Learning & Analytics:** TensorFlow, Keras, Flask, Data Preprocessing, Exploratory Data Analysis (EDA), Statistical Modeling (MAILS Framework), Quantitative Survey Analysis.
- **IT Support & Infrastructure:** Windows OS Deployment, Hardware Diagnostics, Software Troubleshooting, Preventive Maintenance, LAN/WLAN, TCP/IP, UTP Structured Cabling, RJ45 Termination, Ruijie Access Points, Connectivity Testing.
- **Tools & Platforms:** Git, GitHub, Android Studio, Postman, VS Code, Cisco Packet Tracer, XAMPP, Command Prompt (CMD), Vercel, Linux/Windows.

## CERTIFICATIONS & CREDENTIALS

- **National Agency for Professional Certification (BNSP):** Certified Junior Web Developer (Dec 2025) [\[Certificate\]](#)
- **DBS Foundation & Dicoding Indonesia:** Front-End & Back-End Developer Graduate (Jul 2025) [\[Certificate\]](#)
- **Google Bangkit Academy:** Android Learning Path Graduate (Led by Google, GoTo, Traveloka) (Jan 2025) [\[Certificate\]](#)
- **DBS Coding Camp Squad:** Campus Representative & Technical Speaker (Jun 2025) [\[Certificate\]](#)
- **English Language Proficiency:** TOEFL ITP Certified – Score: 527 (Dec 2025) [\[Certificate\]](#)
